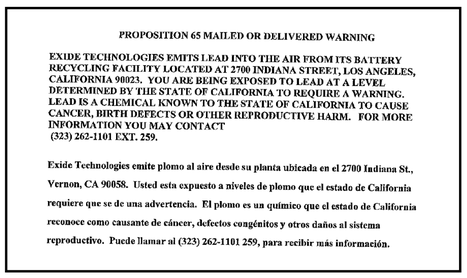
Settlements



PROPOSITION 65 MAILED OR DELIVERED WARNING

EXIDE TECHNOLOGIES EMITS LEAD INTO THE AIR FROM ITS BATTERY RECYCLING FACILITY LOCATED AT 2700 INDIANA STREET, LOS ANGELES, CALIFORNIA 90023. YOU ARE BEING EXPOSED TO LEAD AT A LEVEL DETERMINED BY THE STATE OF CALIFORNIA TO REQUIRE A WARNING. LEAD IS A CHEMICAL KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER, BIRTH DEFECTS OR OTHER REPRODUCTIVE HARM. FOR MORE INFORMATION YOU MAY CONTACT (323) 262-1101 EXT. 259.

Exide Technologies emite plomo al aire desde su planta ubicada en el 2700 Indianna St., Vernon, CA 90058. Usted esta expuesto a niveles de plomo que el estado de California requiere que se de una advertencia. El plomo es un químico que el estado de California reconoce como causante de cáncer, defectos congénitos y otros daños al sistema reproductivo. Puede llamar al (323) 262-1101 259, para recibir más información.

Notice required by Settlement 2008-00394S1363 (*CEH v. Exide*)

The Vons Distribution Center located at 12801 Excelsior Drive in Santa Fe Springs uses and receives vehicles that emit diesel exhaust.

Diesel exhaust is a chemical known to the State of California to cause cancer.

You are receiving this notice because you live in an area determined to be exposed to diesel exhaust and to require a warning pursuant to Proposition 65.

We want you to know that we have initiated a number of measures to reduce the amount of diesel exhaust generated by our operations, including limiting the amount of idling time for trucks at our distribution center. We are also undertaking a test project for the use of natural gas trucks.

For more information, write us at: The Vons Companies Distribution Center, 12801 Excelsior Drive, Santa Fe Springs, CA 90670

El Centro de Distribución de Vons que se encuentra en el 12801 Excelsior Drive en Santa Fe Springs utiliza y recibe vehículos que emiten gases de descarga de motor de diesel.

El gas de descarga del motor de diesel es una sustancia química que el Estado de California sabe que causa cáncer.

Se le manda esta advertencia porque determinamos que Ud. vive en una zone expuesta a la emisión de gases de descarga de motor de diesel y que de acuerdo con la Proposición 65 se requiere esta advertencia.

Queremos que sepa que ya comenzamos a tomar un número De medidas para reducir la cantidad de gases de descarga de los motores diesel generados en nuestro negocio, incluyendo el disminuir la cantidad de tiempo que los camiones están parados con el motor prendido dentro de nuestro centro de distribución. También comenzamos a probar un proyecto piloto de camiones que usan gas natural.

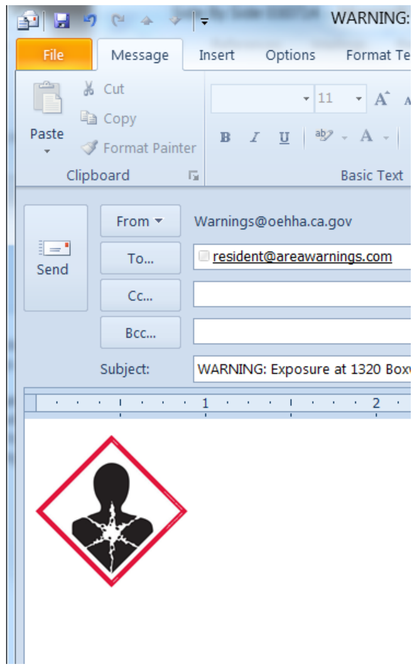
Para más información, escríbanos a: The Vons Companies Distribution Center, 12801 Excelsior Drive, Santa Fe Springs, CA 90670

Notices required by *People v. Lucky Stores* (1990)

PROPOSED

E-Mails (where permissible)

"… A warning provided in a notice mailed, or sent electronically or otherwise personally delivered to each occupant in the affected area. Such notice shall be provided at least once in any three-month period. In the event that an occupant does not have access to electronic delivery, the notice must be provided in an alternative format."



Area Signs

"Environmental exposure warnings shall be provided in a conspicuous manner and under such conditions as to make them likely to be read, seen or heard and understood by an ordinary individual in the course of normal daily activity, and must be reasonably associated with the location and source of the exposure. The warning must be provided in English and in other languages commonly spoken in the affected area."
