

Quick guide for navigating the [CalEnviroScreen 2.0 Results Map](http://arcg.is/1HOROV3)

<http://arcg.is/1HOROV3>

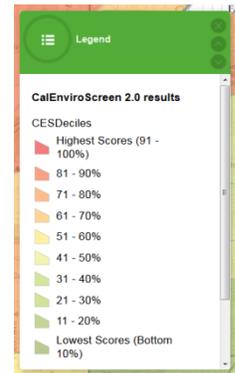

- A. **Navigation:** Use these buttons or the wheel on your mouse to zoom in and out. Click anywhere on the map screen and drag to pan around.

Once you are zoomed in, click on a census tract to see the CalEnviroScreen information as a popup.

- B. **Home:** This button returns you to the original state map view.
- C. **Find my location:** If you share your location on your computer or device, this will zoom you to your location.
- D. **Legend:** The legend shows you what the colors on the map mean.
- E. **Base map:** This allows you to choose a different underlying map, such as satellite imagery.

- F. **Overview map:** A smaller map will appear on the right side of the screen, showing your location zoomed out.

- G. **Share:** Use this to share the map via email or social media. Click "Share current map extent" to share your view.

- H. **Print:** Allows you to create a screenshot of the mapped area to save or print.

- I. **Search:** This window allows you to search locations such as addresses, ZIP codes or cities.
