RE: Oppose Using CalEnviroScreen for Permitting or Enforcement

CPP Corp. was established in 2000 and currently operates in the cities of Cudahy, Azusa, Pomona, Rancho Cucamonga, City of Industry, and PT. Hueneme. We currently employ approx. 950 California employees, provide high-paying manufacturing wages, as well as health care coverage. We manufacture castings using recycled metals that would otherwise go to landfill. Our company serves the aerospace and national defense markets and we compete around the world.

As a small California business, we are trying to remain competitive and keep our workers employed in an unpredictable economy. We are very concerned that CalEnviroScreen is a model that can be misused and add uncertainty to very difficult economic times.

The most recent model implies that environmental effects indicators (e.g. solid waste sites) in the pollution burden category correlate with exposure. We disagree with this assumption. Moreover, the model does not distinguish between health outcomes driven by socio economic status and those caused by chemical pollution exposure. Finally, population characteristics do not have the same root cause as pollution exposures. Multiplying the two issues confuses what will be the most appropriate and efficient solution for each problem.

CPP-Pomona (Corporate Office)
4200 West Valley Boulevard
Pomona, CA 91766
Telephone: (909) 595-2252
Fax: (909) 598-5742

CPP-Port Hueneme
705 Industrial Avenue
Port Hueneme, CA 93041
Telephone: (805) 488-6451
Fax: (805) 488-4129

CPP-Rancho
11000 Jersey Boulevard
Rancho Cucamonga, CA 91730
Telephone: (909) 987-4721
Fax: 909-980-7958

Going forward, OEHHA should revisit the methodologies within the model. In addition, OEHHA must revise the draft guidance letter on the screening tool to more clearly specify appropriate and inappropriate uses of the tool. The tool can be used to satisfy the needs of SB 535, but should be explicitly unconnected from permitting, enforcement, regulatory guidance or rulemaking. The science is not clear enough to rely on the model for these latter issues.

Thank you for the opportunity to comment on this issue. I look forward to seeing a balanced model that achieves rational and reasonable goals for California.

Sincerely,

A handwritten signature in black ink, appearing to read "Al Bannister", with a stylized flourish at the end.

Al Bannister
Director of Facilities
CPP Corp.
