Dear California EPA,

The petition states:

"Mounting evidence shows that exposure to glyphosate – the key ingredient in RoundUp – poses grave health risks for people. We have a right to know whether RoundUp contains a dangerous toxic chemical that could harm our health. I urge you to label glyphosate as a chemical "known to cause cancer."

My additional comments are:

HELLO, we have a WATER supply we need to protect. Why are we allowing farmers to poison our precious ground water with carcinogenic pesticides?
