

Peer Reviewed Publications
by Scientists at OEHHA
January 1987 through May 2011

The following is a compilation of the published works of the Office of Environmental Health Hazard Assessment (OEHHA) staff in peer-reviewed journals for years 1987 through 2011. In addition to state publications available on our website or books, OEHHA encourages staff to publish their work in external journals and books. In several cases these publications reflect collaborative activities with other scientists outside of OEHHA. The OEHHA staff (at the time of publication preparation) that contributed to the publication are underlined.

Abbey D, Ostro BD, Fraser G, Vancuren T, Burchette RJ. 1995. Estimating fine particulates less than 2.5 microns in aerodynamic diameter (PM_{2.5}) from airport visibility data in California. *J Exp Anal Environ Epidemiol* 5(2):161-180.

Abbey D, Ostro BD, Petersen F, Burchette RJ. 1995. Chronic respiratory symptoms associated with estimated long-term ambient concentrations of fine particulates less than 2.5 microns in aerodynamic diameter (PM_{2.5}) and other air pollutants. *J Exp Anal Environ Epidemiol* 5(2):137-159.

Alexeeff GV, Lipsett MJ, Kizer KW. 1989. Problems associated with the use of immediately dangerous to life and health (IDLH) values for estimating the hazard of accidental chemical releases. *Am Ind Hyg Assoc J* 50:598-605.
