Re: Draft Technical Support Document and Public Workshop for Proposed Public Health Goals for Perfluorooctanoic Acid and Perfluorooctane Sulfonic Acid in Drinking Water

To Whom It May Concern:

The American Chemistry Council (ACC) respectfully requests an extension of 60 days of the comment deadline for the draft Technical Support Document for the Public Health Goals for perfluorooctanoic acid (PFOA) and perfluorooctane sulfonic acid (PFOA). The draft document raises several issues that will require some additional time for ACC to fully consider in developing its comments.

Thank you for your prompt attention to this request. Please contact me at 202-249-6727 or srisotto@americanchemistry.com if you have any questions.

Sincerely,

Steve Risotto
