

CleanEarth4Kids.org

January 14, 2022

CleanEarth4Kids.org supports the proposed changes. It is very important to clearly notify people of any harmful chemicals in products to reduce exposure to toxins.

It is critical that anyone shopping in person or online for a product can quickly and easily see if it contains something that could cause cancer, birth defects or is a reproductive toxicant.

We thank OEHHA for your work to protect and inform Californians and know you set the standard for the whole country.

Sincerely,

A handwritten signature in black ink that reads 'Suzanne M. Hume'. The signature is fluid and cursive, with the first name being the most prominent.

Suzanne M. Hume

Educational Director & Founder
