Subject: Glyphosate NSRL
Date: Sunday, June 25, 2017 4:36:46 PM

Good Afternoon Esther,

We do not want any glyphosate exposure to our children through food, water or any products. We want the current products which do contain glyphosate to be immediately labeled. The current scientific data and skyrocketing numbers of children and family members with chronic illness and cancer show us that the only ethical action for the CAL-EPA to declare a NO safe level of glyphosate. Zero.

Before you dismiss this request as unreasonable, consider that the amount of glyphosate in our food and the OEHHA current proposal is actually what is unreasonable.

Thank you,

Alyssa K
