Subject: GLYPHOSATE NSRL
Date: Thursday, May 25, 2017 8:03:20 AM

I am writing to express my deepest concerns about allowing the continued consumption and exposure to glyphosate. There is overwhelming scientific evidence that glyphosate is NOT SAFE for consumption at any level. I am writing as a biological scientist, mother of two young children, teacher, and a very concerned and informed citizen.

Thank you,
