

**CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT**

**SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(Proposition 65)**

**NOTICE TO INTERESTED PARTIES
November 27, 2015**

CHEMICAL LISTED EFFECTIVE **NOVEMBER 27, 2015
AS KNOWN TO THE STATE OF CALIFORNIA TO CAUSE REPRODUCTIVE
TOXICITY:
TOPIRAMATE**

Effective **November 27, 2015**, the Office of Environmental Health Hazard Assessment (OEHHA) is adding *topiramate* (CAS No. 97240-79-4) to the list of chemicals known to the state to cause reproductive toxicity (developmental endpoint) for purposes of Proposition 65¹.

The listing of topiramate is based on a formal requirement by a state or federal agency that the chemical be identified or labeled as causing reproductive toxicity² as provided under Proposition 65. Topiramate has been identified or labeled to communicate a risk of reproductive harm (developmental toxicity endpoint) in accordance with formal requirements by the US Food and Drug Administration. Regulations governing the listing of chemicals under the “formally required to be labeled or identified” mechanism are published in Title 27, California Code of Regulations, section 25902.

The documentation supporting OEHHA’s determination that topiramate meets the criteria for administrative listing is included in the [Notice of Intent to List Topiramate](#), published in the October 2, 2015 issue of the *California Regulatory Notice Register* (Register 2015, No. 40-Z). No public comments were received.

A complete, updated chemical list is published in this issue of the *California Regulatory Notice Register* and is available on the OEHHA website at www.oehha.ca.gov.

In summary, the following chemical is listed under Proposition 65 as known to the State to cause reproductive toxicity:

¹ The Safe Drinking Water and Toxic Enforcement Act of 1986, Health and Safety Code section 25249.5 et seq.

² See Health and Safety Code section 25249.8(b) and Title 27, Cal. Code of Regs., section 25902

Chemical	CAS No.	Toxicological Endpoints	Listing Mechanism*
Topiramate	97240-79-4	Developmental toxicity	FR

* Listing mechanism: FR — “formally required to be labeled or identified” mechanism (Health and Safety Code section 25249.8(b)) and Title 27 Cal. Code of Regs., section 25902
