Dean Thompson, President
Resilient Floor Covering Institute
115 Broad Street, Suite 201
LaGrange, Georgia 30240

Dear Mr. Thompson:

In response to Resilient Floor Covering Institute's (RFCI) request on behalf of its member companies, the Office of Environmental Health Hazard Assessment (OEHHA) is issuing the following safe use determination for professional flooring installer exposures to diisononyl phthalate (DINP) in vinyl flooring products, pursuant to our authority under Title 27 of the Cal. Code of Regs., section 25204(h)(1):

- OEHHA is issuing a safe use determination for DINP exposures to professional vinyl flooring installers from vinyl flooring products containing 8.7% DINP by weight, or less.

Please find enclosed copies of our document supporting this determination and the notice, as it will appear on the OEHHA website at www.oehha.ca.gov, and in the *California Regulatory Notice Register*, dated December 30, 2016. If you would like to discuss any issue concerning the safe use determination, please call Dr. Martha Sandy of my staff at (510) 622-3190.

Sincerely,

Allan Hirsch
Chief Deputy Director
