Dear Ms. Barajas-Ochoa,

We write to you on behalf of our clients Paul Galvan, Frank Tanner, John D. Sanders, and Yolanda Mendoza, to respectfully request a hearing in the matter of the proposed regulatory amendment to Title 27 of the California Code of Regulations, Section 25705(b). Our clients are California residents who have developed Non-Hodgkin's Lymphoma as a result of using the chemical glyphosate, known to the State of California to cause cancer, and have brought individual lawsuits in federal court. We believe that a hearing is required to address the various issues with the proposed amendment which has the potential to raise serious public health concerns if adopted. Specifically, the proposed No Significant Risk Level for glyphosate does not comply with the statutory requirements of Title 27 of the California Code of Regulations § 25703(a)(2). A hearing will allow interested parties to address the scientific, legal, social, and ethical questions affected by the proposed amendment, voice objections, and propose alternatives in an involved and transparent manner.

We look forward to hearing from you and to presenting our concerns before the Office of Environmental Health Hazard Assessment if a hearing is scheduled.

Yours sincerely,

Robin Greenwald  
Pearl Robertson
