

# Proposition 65 Chemicals

## Administratively Added to the List Since November 2015

Chemical	Endpoint	Effective Listing Date
Topiramate	Developmental toxicity	November 27, 2015
Aloe Vera, non-decolorized whole leaf extract Goldenseal root powder	Cancer	December 4, 2015
Abiraterone acetate	Developmental toxicity Female reproductive toxicity Male reproductive toxicity	April 8, 2016
Styrene	Cancer	April 22, 2016
Tetrachlorvinphos Parathion Malathion	Cancer	May 20, 2016

# Proposition 65 Chemicals Administratively Added to the List Since November 2015

Chemical	Endpoint	Effective Listing Date
Sedaxane	Cancer	July 1, 2016
Atrazine Propazine Simazine and triazine metabolites DEA, DIA, DACT	Developmental toxicity Female reproductive toxicity	July 15, 2016
Bromodichloroacetic acid	Cancer	July 29, 2016
1-Bromopropane (1-BP)	Cancer	August 5, 2016
Furfuryl alcohol	Cancer	September 30, 2016
Pentachlorophenol and by-products of its synthesis (complex mixture)	Cancer	October 21, 2016

# Proposition 65 Chemicals Under Consideration for Administrative Listing

Chemical	Endpoint	Notice of Intent to List Date
Glyphosate	Cancer	September 4, 2015
Perfluorooctanoic acid (PFOA) and Perfluorooctane sulfonate (PFOS)	Developmental toxicity	September 16, 2016
Vismodegib	Developmental toxicity Female reproductive toxicity Male reproductive toxicity	September 30, 2016
Pertuzumab	Developmental toxicity	September 30, 2016

# Proposition 65 Adopted Safe Harbor Levels

<b>Chemical</b>	<b>Safe Harbor</b>	<b>Date Effective</b>
Bisphenol A (BPA) (dermal exposure from solid materials)	Maximum Allowable Dose Level	October 1, 2016

# Proposition 65

## Proposed Safe Harbor Levels

Chemical	Safe Harbor	Date Proposed
Ethylene glycol (ingested)	Maximum Allowable Dose Level	April 8, 2016
Styrene	No Significant Risk Level	April 22, 2016
Atrazine (oral) Propazine (oral) Simazine (oral) DEA (oral) DIA (oral) DACT (oral)	Maximum Allowable Dose Level	June 10, 2016
