**SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(Proposition 65)**

**NOTICE OF INTENT TO LIST CHEMICALS
Extension of Public Comment Period
August 4, 2006**

The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65) requires the Governor to publish, and update at least annually, a list of chemicals known to the State to cause cancer or reproductive toxicity. The Office of Environmental Health Hazard Assessment (OEHHA) is the lead agency for the implementation of Proposition 65.

On July 21, 2006, OEHHA published a notice in the *California Regulatory Notice Register* (Register 06, No. 29-Z) announcing its intent to list *anthraquinone* under Proposition 65 as a chemicals known to the state to cause cancer in accordance with the regulatory criteria in Section 12306 of Title 22 of the California Code of Regulations. The publication of the notice initiated a 30-day public comment period which would have closed on August 21, 2006. OEHHA has received a request from an interested party seeking an extension of the comment period to allow for the submission of complete and relevant scientific information. OEHHA hereby extends the public comment period for *anthraquinone* for 60 days to 5 p.m., **Friday, October 20, 2006.**
