

ART AND CRAFT MATERIALS THAT CANNOT BE PURCHASED FOR USE IN KINDERGARTEN THROUGH 6TH GRADE

Office of Environmental Health Hazard Assessment
California Environmental Protection Agency
August 2021

California Education Code Section 32064 prohibits schools from purchasing art or craft materials containing a toxic substance for use by students in kindergarten and grades 1 to 6 (K-6). The law also requires the Office of Environmental Health Hazard Assessment (OEHHA) to develop a list of products that schools cannot purchase for use by students in grades K-6. This list is intended to assist schools, school districts, and governing authorities of private schools in complying with the purchasing requirements.

In addition to these listed items, products accompanied by a Proposition 65 warning should not be purchased for use in grades K-6.

Purchasers must ensure that all art and craft materials to be used by students bear a statement of conformity to ASTM D-4236 (Standard Practice for Labeling Art Materials for Chronic Health Hazards), as required by federal law. Items to be used by students in grades K-6 must not bear acute or chronic health hazard labels. Although not required by law, avoiding art materials that bear acute or chronic health hazard labels when purchasing for grades 7-12 is a good precautionary measure. Schools are encouraged to inventory existing art and craft supplies and remove materials bearing health hazard labels from K-6 classrooms. For further information, please see *Art and Craft Materials in Schools: Guidelines for Purchasing and Safe Use*, available online (<https://oehha.ca.gov/media/downloads/risk-assessment/document/guidelines2019.pdf>).

OEHHA compiled the attached list based on product evaluations conducted by other entities¹ according to federal requirements. Other art and craft materials that can be listed are products recalled in the past two years², as well as those brought to OEHHA's attention as bearing health hazard labels. Purchasers should check products for health hazard labels before purchasing, as some products that contain a toxic substance may not be listed here.

For questions regarding this list, or to bring information regarding additional products for possible inclusion in future updates, please contact art.hazards@oehha.ca.gov, or:

California Environmental Protection Agency
Office of Environmental Health Hazard Assessment
Attn: Art Hazards
1001 I Street, PO Box 4010, MS 12-B
Sacramento, CA 95814

A digital version of this list and the guidelines accompanying this list are available at:
<http://oehha.ca.gov/risk-assessment/art-hazards>

¹ The Art & Creative Materials Institute, Inc.: www.acmiart.org (List dated July 14, 2021)

² U.S. Consumer Product Safety Commission: www.cpsc.gov/en/Recalls/

Products are listed under eight categories presented as headings with definitions. The manufacturer, the product name, and the source of the listing are identified, as follows:

- 1 - The Art & Creative Materials Institute, Inc., Certified Products List: products identified as bearing the Cautionary Labeling (“CL”), downloaded July 14, 2021, <https://www.acmiart.org/productlist>. An asterisk (*) indicates that the product line includes items certified as safe for children, for example, paints that do not contain a harmful pigment. These products will bear the Approved Product (“AP”) seal, which identifies art materials that are certified in toxicological evaluation to contain no materials in sufficient quantities to be toxic or injurious to humans, including children.
- 2 - Product recalls, Consumer Product Safety Commission. The CPSC database (www.cpsc.gov) was accessed on July 14, 2021 and the list of recalled items was searched based on key words on the art hazards list (clay, markers, art, craft, cleaners, etc.).
- 3 - Products brought to OEHHA’s attention as bearing hazard labels or containing toxic chemicals.
