

ART AND CRAFT MATERIALS THAT CANNOT BE PURCHASED FOR USE IN KINDERGARTEN THROUGH 6TH GRADE

Office of Environmental Health Hazard Assessment
California Environmental Protection Agency
August 2022

California Education Code Section 32064 prohibits schools from purchasing art or craft materials containing a toxic substance for use by students in kindergarten and grades 1 to 6 (K-6). The law also requires the Office of Environmental Health Hazard Assessment (OEHHA) to develop a list of products that schools cannot purchase for use by students in grades K-6. This list is intended to assist schools, school districts, and governing authorities of private schools in complying with the purchasing requirements.

In addition to these listed items, products accompanied by a Proposition 65 warning should not be purchased for use in grades K-6.

Purchasers must ensure that all art and craft materials to be used by students bear a statement of conformity to ASTM D-4236 (Standard Practice for Labeling Art Materials for Chronic Health Hazards), as required by federal law. Items to be used by students in grades K-6 must not bear acute or chronic health hazard labels. Although not required by law, avoiding art materials that bear acute or chronic health hazard labels when purchasing for grades 7-12 is also a good precautionary measure. Schools are encouraged to inventory existing art and craft supplies and remove materials bearing health hazard labels from K-6 classrooms. For further information, please see *Art and Craft Materials in Schools: Guidelines for Purchasing and Safe Use*, available online (<https://oehha.ca.gov/media/downloads/risk-assessment/document/guidelines2019.pdf>).

OEHHA compiled the attached list based on product evaluations conducted by other entities¹ according to federal requirements. Other art and craft materials listed are products recalled in the past five years², as well as those brought to OEHHA's attention as bearing health hazard labels in the same time frame. Purchasers should check products for health hazard labels before purchasing, as some products that contain a toxic substance may not be listed here.

For questions regarding this list, or to bring information regarding additional products for possible inclusion in future updates, please contact art.hazards@oehha.ca.gov, or:

California Environmental Protection Agency
Office of Environmental Health Hazard Assessment
Attn: Art Hazards
1001 I Street, PO Box 4010, MS 12-B
Sacramento, CA 95814 (916) 324-7572

¹ The Art & Creative Materials Institute, Inc. ([ACMI](#))

² U.S. Consumer Product Safety Commission. ([CPSC](#))

Products are listed under eight descriptive categories presented as headings with definitions. The manufacturer, the product name, and the source of the listing are identified according to source numbers 1, 2 or 3, as follows:

- 1 - Products identified on the Art & Creative Materials Institute, Inc.'s (ACMI) Certified Products List as either bearing the "Cautionary Labeling" ("CL") seal or not bearing the "Approved Product" ("AP") seal. The ACMI Certified Products List was downloaded on August 17, 2022. An asterisk (*) in the list below indicates that there are specific items in the product line that bear the "AP" seal; this means that based on a toxicological evaluation, these products are certified to contain no materials in sufficient quantities to be toxic or injurious to humans, including children.
- 2 - Product recalls by the Consumer Product Safety Commission (CPSC) in the past five years. The CPSC database was accessed on August 22, 2022, and the list of recalled items was searched based on key words on the art hazards list (clay, markers, art, craft, cleaners, etc.).
- 3 - Products brought to OEHHA's attention as bearing hazard labels or containing toxic chemicals in the past five years, subject to verification by OEHHA.
