

**CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY  
OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT  
SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986  
(Proposition 65)**

**NOTICE TO INTERESTED PARTIES  
April 19, 2002**

**CHEMICAL LISTED EFFECTIVE April 19, 2002  
AS KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER**

The Office of Environmental Health Hazard Assessment (OEHHA) of the California Environmental Protection Agency is adding *naphthalene* to the list of chemicals known to the State to cause cancer for purposes of the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65). The listing of *naphthalene* is effective **April 19, 2002**.

*Naphthalene* (CAS # 91-20-3) is listed as a chemical known to the State to cause cancer. The listing of *naphthalene* is based on a formal identification by an authoritative body that the chemical causes cancer pursuant to an administrative listing mechanism provided under Proposition 65. Regulations governing the listing of chemicals under the “authoritative bodies” mechanism are published in Title 22, California Code of Regulations, Section 12306 (22 CCR 12306).

The reader is directed to the *Notice of Intent to List Naphthalene* published in the October 19, 2001, issue of the *California Regulatory Notice Register* (Register 01, No. 42-Z) for the supporting documentation for the chemical *naphthalene*, which OEHHA relied upon in making its determination that the criteria for administrative listing have been satisfied.

A complete, updated chemical list is published elsewhere in this issue of the *California Regulatory Notice Register*.

In summary, the following chemical is added to the Proposition 65 chemical list as ***known to the State to cause cancer***:

Cancer

Chemical	CAS No.	Toxicological Endpoint	Listing Mechanism <sup>1</sup>
Naphthalene	91-20-3	Cancer	AB

<sup>1</sup> Listing mechanism:

AB – “authoritative bodies” mechanism (22 CCR 12306)
